# College Visit Brainstorm

Advisor: \_\_\_\_\_

What type of college are you interested in shadowing? Big? Small? Public? Private?

Arrange a Visit (adapted from [www.collegeboard.org](http://www.collegeboard.org))

All colleges have admission offices that can help you plan your visit.

- Contact the college admission office through the college's website or by email or phone to get details and make a reservation.

Most campus visits will include the following:

- An information session. An admission representative talks to you or your group about the college before the campus tour.
- A campus tour. These are usually led by current students. You'll see the main parts of the campus and have a chance to ask questions.

At many colleges, you can also arrange to do the following:

- Attend a class.
- Attend a club meeting or a sports practice session.
- Eat in the dining hall.

Before your visit, you should be prepared:

- Explore the college's official website and review any materials the college has sent you. This will help you come up with questions specific to that college.
- Make a list of questions to ask both staff and students.
- Get a map of the college campus and check where the admissions office is. This will help ensure that you're on time for your visit.
